Chief Engineer – Retail and Commercial Properties

Our client is a leading, international property management firm who provide real estate services across the globe.

Due to their growth over the last few years, they are currently looking for a Chief Engineer to join their team in Vancouver, where you will be responsible for a mixed use office and retail building.

Your responsibilities will include managing the on site engineers, maintenance staff, contractors and janitorial staff. The position requires a hands on approach to management and you must be very technically talented with all mechanical aspects of buildings and be able to lead by example with your solid background in this field. You will be responsible for overseeing the maintenance of all building systems, and dealing with service requests from tenants.

Ideally you will be a Chief Engineer in a similar environment and have a minimum of 5 years experience. You must hold your 4th class power engineering ticket and have a solid background in managing other engineers, be experienced with computer systems, be very detail oriented, have excellent communication skills and have a cheerful disposition.

If you have the necessary qualifications and experience, and are looking for a new and challenging opportunity, please send your resume in Word format to cdavies@hays.ca with the position you are applying for in the subject line.

Thank you in advance for your interest. We regret that we can only respond to candidates chosen for interview. Candidates must be authorized to work in Canada.

Hays is a global leader in specialist recruitment, placing professional candidates in permanent, temporary and interim positions. Listed on the London Stock Exchange, the company has been at the forefront of recruitment for over 35 years and operates in 28 countries. We place our candidates with industry leaders on a permanent or contract/temporary basis.
