SENIOR DIRECTOR FACILITIES AND CAMPUS DEVELOPMENT

The **Senior Director** is responsible for the safe, effective and efficient management of [Facilities and Campus Development](#) throughout BCIT and is a key player in implementing the [campus master plan](#) and capital renewal initiative. One of the primary roles is to provide for the long-term needs of the Institute's capital assets. The Senior Director will ensure that these projects will utilize best available sustainability practices, energy management and infrastructure management technologies. This includes planned programs for repairs and maintenance as well as the campus wide building renewal initiative and modernization projects. Reporting to the Vice President, Finance and Administration, the Senior Director plays an integral role in overseeing specific contract services provided by an external facilities management and custodial services provider.

QUALIFICATIONS:

- > Relevant degree or designation in planning, architecture, engineering with five to ten years current, relevant senior management experience, preferably with both industry and public sector; a combination of education and experience may be considered
- > Extensive knowledge of the principles of facilities planning, LEEDS and best practices for facilities management
- > Strong background in budgeting, project procurement processes, and finance
- > Good organizational skills and a high degree of self motivation and business acumen
- > Proven ability to manage people and develop high performance work teams in a rapidly changing unionized workplace
- > Ability to effectively communicate with all levels of customers and stakeholders
- > Attributes that recognize and capitalize on windows of opportunity, creativity and innovation that maximizes development of new services to positively contribute to and impact the campus environment
- > Demonstrated project management skills, and experience including planning, design and construction
- > Ongoing awareness and interest in educational trends and planning
