

**BOMA BC Membership Report re: Vancouver Regional Update
Feb 2011**

BOMA continued to have strong representation at the civic & municipal levels of government. BOMA was involved with City of Vancouver officials on development 'green' policy issues and environmental regulations; with City of Surrey on revitalization tax credits; with Metro Vancouver on solid waste policy and Translink funding; and finally, with BC Safety Authority on their 'Alternative Safety Approaches' initiative and BCSCA elevator mechanic certification.
